Catalog Description: ESB40-40-230AC/DC Installation Contactor

Long Description: The ESB40 installation contactor is a 4 pole contactor suitable for modular switchboards. T

hey are specially designed fitting to modular DIN rail products and for applications where c ustomers want to use the panel design with high finger protection. Installation contactors ar e used in residential, commercial and industrial applications for the control of single or thre e-phase loads up to 40 A or switching of control signals. Further features are the noiseless and hum-free DC coil, the integrated overvoltage protection up to 5 kV and a switch positio n indication. Auxiliary contacts, distance pieces and sealing cover for protection against un

authorized changes are available as accessory.
